

Reporting Services Questions: Doesn't Reporting Services include functionality to print labels?

No. Not even in their latest version and I wouldn't look for it anytime soon.

Below is an excerpt from a recent [Microsoft Q and A Webcast on RS for 2005](#):

Susan Asked: Will RS 2005 support the creation of mailing labels better than RS 2000?

**Answered:* We haven't made any changes in this area.*

That's a useless answer. Well it does answer the question, but I'm sure it wasn't what Susan wanted to hear. Susan, if you are out there, here is a better answer: The [ReportPax Label templates](#) will allow you to easily create and print your mailing labels. The templates are what Microsoft should of included in Reporting Services.

Unique solution ID: #1003
